Buyer Mobilisation Proposal – Poland

7th Bharat Footwear & Leather Expo (BFLEX) · 15–16 March 2027 · New Delhi, India

Prepared for: **Council for Leather Exports (CLE)**

Prepared by: **Poland Importers – Trading and Market Research** · poland-importers.com

Date: 22 October 2026

1. Summary

We propose to build a **qualified delegation of Polish buyers** covering three product groups:

Group	Scope	Indicative quota*
A. Footwear	Leather footwear for men, women and children, including casual, formal and safety footwear	6 buyers
B. Leather accessories	Bags, small leather goods (wallets, card holders), belts, gloves, travel goods	4 buyers
C. Leather apparel	Leather and suede jackets, coats, garments	2–3 buyers

* The final number will follow the allocation confirmed by CLE. For each group we will submit **about 1.5–2 times the quota** in profiles. This gives CLE a real choice and leaves a pre-approved reserve list.

Our approach has three principles:

1. **Quality over quantity.** We only propose companies that import, or are ready to import, in commercial volumes. We only propose delegates who have purchasing authority.
2. **CLE decides.** No buyer is invited, and no participation is promised, before CLE has approved the buyer's profile in writing. Every candidate is told at first contact that participation depends on CLE approval.
3. **Each buyer arrives with a clear sourcing need.** Every approved buyer comes to New Delhi with defined product needs. CLE can share these needs with exhibitors in advance, so meetings at the show are pre-matched rather than random.

Final approved list: **Monday, 30 November 2026**.

2. Who we will send to India – target buyer profile

2.1 Buyer types we will mobilise

Buyer type	Why relevant for Indian exhibitors	Footwear	Leather accessories	Leather apparel
Footwear and fashion **retail chains** with private labels	Large volumes and repeat seasonal programmes	●	●	●
Polish **brands** (own collections, outsourced production)	Look for capable manufacturers for private-label and design-to-spec work	●	●	●
E-commerce platforms and online fashion retailers	Fast-growing channel that needs wide assortments	●	●	○
Importers, wholesalers and distributors (also re-exporting to Central and Eastern Europe)	Buy container loads and supply hundreds of independent shops	●	●	●
Producers outsourcing part of their range or components	Need finished goods, uppers or leather components to fill capacity gaps	●	●	○
Safety equipment (PPE) and workwear distributors	Safety footwear and leather work gloves, where India is very strong	●	● (gloves)	○
Corporate gift and promotional distributors	Leather portfolios, wallets, belts and gift sets for corporate clients	–	●	–

● main target · ○ selective

2.2 Indicative Polish market examples

The companies below only illustrate the type of buyer we target. The final names will be proposed only after qualification and CLE approval.

- **Footwear chains and brands:** CCC Group (CCC, Lasocki, Gino Rossi), Wojas, Kazar, Ryłko, Badura, Venezia, Bartek (children's footwear)
- **Fashion and menswear chains with footwear and accessories:** VRG Group (Vistula, Bytom, Wólczanka), LPP Group (Reserved, House, Mohito), Monnari, Big Star
- **Leather goods and leather apparel brands:** Wittchen, Ochnik, Puccini, Batycki, Felice
- **E-commerce:** Modivo / eobuwie.pl, Answear.com and specialised online shoe and bag stores
- **Wholesalers, distributors and producers:** regional footwear and leather goods wholesalers, PPE distributors (e.g. REIS), producers such as Maciejka, Marco and Befado

2.3 Who will travel – delegate requirements

- The delegate is a **decision-maker**: owner or CEO, purchasing or sourcing director, or head buyer or category manager with budget responsibility. Junior staff, designers without purchasing authority and external consultants are not accepted.
- **One delegate per company.** A second delegate is possible only for large chains (50 or more stores, or a major e-commerce business) and only with separate CLE approval.
- The delegate speaks **working English**.
- The delegate holds a **valid passport** (at least 6 months' validity after the event) and agrees to apply for an Indian visa on time.

- The delegate commits **in writing** to attend both show days, take part in the pre-arranged B2B meetings and give feedback after the event (see Section 4.5).

3. Selection criteria

3.1 Must-have criteria (pass or fail)

A company that fails any of these criteria is not submitted to CLE.

1. A Polish company registered in KRS (National Court Register) or CEIDG (register of sole traders), with a valid VAT number, **trading for at least 2 years**.
2. An active business in footwear, leather accessories or leather apparel that fits the BFLEX exhibitor categories.
3. **Direct import** of the relevant products from outside the EU, or a documented plan and ability to start importing (logistics, financing, customs).
4. Real purchasing volume. Indicative minimums:
5. footwear: about **5,000 pairs a year**
6. accessories: about **3,000 pieces a year**
7. apparel: about **500 pieces a year**

CLE may apply lower thresholds for niche or premium buyers. 5. A **concrete sourcing need for the 2027/28 seasons** (product types, materials, price points, quantities). 6. The delegate meets the requirements in Section 2.3. 7. The company has no unresolved trade disputes, insolvency or restructuring proceedings. We check this in public registers.

3.2 Scoring matrix (100 points)

Every company that passes the must-have criteria is scored. The score and a short explanation appear in each profile, so CLE can see why we recommend the buyer.

Criterion	Max points	What we check
Purchasing scale	20	Annual purchase volume, turnover band, number of stores or B2B clients
Product and price fit with Indian supply	20	Leather-based ranges, mid-market or premium segment, product types where India is strong
Import capability and experience	15	Current imports from Asia or Turkey, in-house import or logistics team, ability to place container orders
Concrete 2027 sourcing need	15	Named products, target quantities, target prices, delivery windows
Seniority of delegate	15	Decision-making authority, ability to approve samples and orders
Market reach	10	Store network, e-commerce traffic, wholesale reach in Poland and Central and Eastern Europe
Openness to India	5	Previous sourcing from India, or a stated reason to diversify away from current supplier countries

- **65 points or more:** recommended (Category A).
- **50–64 points:** proposed as a reserve (Category B).
- **Below 50 points:** not submitted.

3.3 Group-specific criteria

	Footwear	Leather accessories	Leather apparel
Priority products	Men's formal and Goodyear-welted shoes, leather casuals, sandals, children's leather shoes, safety footwear	Bags, wallets and small leather goods, belts, fashion and work gloves, travel goods	Jackets, coats, biker and fashion styles, suede
Key questions	Pair volumes per season, lasts and sizing, minimum order quantity (MOQ) per style and colour	MOQ per style, private-label branding, packaging	Sizing and fit, seasonal timing (autumn/winter), leather type and finish
Compliance checked	REACH (chromium VI, under 3 mg/kg), EN ISO 20345 for safety footwear	REACH, metal parts (nickel), EN ISO 21420 / EN 388 for work gloves	REACH, care labelling, leather origin

4. Process: from long list to approved delegation

4.1 Step-by-step workflow

```
Long list (120–150 companies)
   ↓  desk screening against the must-have criteria
Screened list (60–80)
   ↓  qualification calls with decision-makers (structured questionnaire, Annex B)
Qualified candidates (30–40)
   ↓  scoring, documents, signed declaration of intent
Profiles submitted to CLE in 3 batches (about 1.5–2× the quota)
   ↓  CLE review: Approved / Rejected / Query / Waitlist
Approved delegation + approved reserve list   →   30 November 2026
```

1. **Long list.** We build the long list from our own database of Polish importers and buyers, built over more than 25 years of trade work. We add public registers (KRS, CEIDG), trade-fair exhibitor and visitor lists, industry associations and e-commerce market data. Each company is assigned to Group A, B or C.
2. **Desk screening.** We check registration, years of trading, financial data where available, sales channels, product ranges and price points. Companies that fail any must-have criterion are removed.
3. **Qualification calls.** Senior consultants talk directly with the decision-maker, in Polish. They present BFLEX, the Indian supply base, CLE's hosted-buyer terms and the approval requirement, then complete the structured questionnaire (Annex B).
4. **Documentation.** For every qualified candidate we collect:
5. the completed profile form
6. a company registration extract
7. links to the website, online shop or store locator
8. a signed **Declaration of Intent** (Section 4.5)
9. the delegate's written **GDPR consent** to share personal data with CLE in India
10. **Scoring and recommendation.** We score each candidate internally and write a short recommendation.
11. **Submission to CLE** in three batches (Section 4.3).
12. **Invitations.** After CLE approval, CLE issues formal invitations. We do not issue invitations ourselves.

4.2 How profiles are shared with CLE

- **Buyer profile (PDF, 1–2 pages per buyer).** A standard template (Annex A) used for every buyer, so profiles are easy to compare.
- **Master shortlist tracker (Excel).** One row per buyer with the group, buyer type, score, category (A or B), our recommendation, and a **CLE decision column**.
- **Supporting documents.** Registration extract, signed Declaration of Intent and GDPR consent, filed per buyer.
- **Secure shared folder.** On a platform chosen by CLE, or provided by us, with access limited to named CLE officers. Each batch is announced by email with a short summary.
- **CLE decision codes:**
- **APPROVED:** the buyer is confirmed for invitation.
- **REJECTED:** we inform the company politely and give no further commitment.
- **QUERY:** CLE needs more information. We answer within **2 working days**.
- **WAITLIST:** the buyer is approved as a reserve and can replace an approved buyer who drops out.
- **Weekly status call** (30 minutes, online) with the CLE contact person during November.
- All personal data is processed under the GDPR. Delegates give explicit consent to the transfer of their data to CLE in India for the purposes of the event.

4.3 Timeline to 30 November 2026

Week	Dates	Activities	Output
1	26–30 Oct	Kick-off call with CLE: confirm quotas per group, hosted-buyer terms, the profile template and the sharing platform. Build the long list.	Agreed criteria and template; long list
2	2–6 Nov	Desk screening and first qualification calls	**Batch 1** of profiles to CLE: **Fri 6 Nov**
3	9–13 Nov	Qualification calls (11 Nov is a public holiday in Poland). CLE reviews Batch 1.	**Batch 2** to CLE: **Fri 13 Nov**
4	16–20 Nov	Final calls, answers to CLE queries, reserve candidates	**Batch 3** (final batch and reserves): **Fri 20 Nov**
5	23–27 Nov	CLE decisions on all batches; we close open queries and the balance between groups	Draft final list
—	**Mon 30 Nov**	**Final approved delegation and approved reserve list**	Signed-off tracker

We ask CLE to return decisions within **3–5 working days** of each batch. That way the final list is complete before 30 November.

4.4 After approval: December 2026 – March 2027

Period	Activity
1–11 Dec	CLE issues formal invitations. We make sure each buyer accepts within 7 days. A buyer who declines is replaced from the approved waitlist.
Dec – Jan	Travel and visa support: guidance on the Indian e-Business Visa, document checklists, coordination of flights and hotel according to CLE terms. Christmas and New Year are planned in.
Jan – Feb	**Sourcing brief for each buyer** (products, quantities, target prices, compliance needs) is sent to CLE so meetings with exhibitors can be pre-matched.
Late Feb	**Online pre-departure briefing:** the Indian leather industry, the BFLEX exhibitor profile, practical information and how to get the most from the meetings.
1 and 9 Mar	Attendance reconfirmed with every buyer (2 weeks and 1 week before the show)
15–16 Mar	Event. Optional: a Poland Importers coordinator accompanies the delegation on site.
By 15 Apr	Buyer feedback survey and **post-event report to CLE** (meetings held, samples requested, follow-up actions)
Jun and Sep 2027	Follow-up at 3 and 6 months on samples, trial orders and confirmed orders, shared with CLE

4.5 Buyer Declaration of Intent

Before a profile is sent to CLE, each candidate signs a short declaration confirming that they will:

- attend **both days** of BFLEX and the B2B meetings scheduled by CLE
- not transfer the invitation to another person or company without CLE approval
- inform us immediately if they cannot travel
- complete the post-event feedback and the 3- and 6-month follow-ups
- accept that participation is **subject to CLE approval** and to CLE's hosted-buyer terms

5. Risk control

Risk	How we manage it
Buyers who come mainly for the trip	Must-have criteria, phone verification, registry checks, scoring and the signed declaration
Last-minute cancellations	Approved waitlist, acceptance within 7 days of the invitation, reconfirmation 2 weeks and 1 week before the show
Visa or travel delays	Early checklist, e-Visa guidance, applications filed early
Buyer needs do not match exhibitors	A sourcing brief for each buyer, shared with CLE for pre-matching
Delegation dominated by one group	Quotas per group and a balanced mix of buyer types (chains, brands, wholesalers, e-commerce)
Personal data protection	GDPR-compliant consent and a restricted-access shared folder

6. Success indicators

- At least **90%** of approved buyers attend.
- At least **8 pre-arranged B2B meetings** per buyer during the show.
- At least **50%** of buyers request samples or quotations within 3 months.
- Trial or confirmed orders are tracked and reported at 3 and 6 months.

---

7. Why Poland Importers

- **More than 25 years** of trade, distribution and market research in Poland and Central and Eastern Europe.
- Experience organising **trade missions and B2B meetings** for chambers of commerce, producer associations and government institutions, including from **India**, Pakistan and Bangladesh.
- Practical sector knowledge in **footwear, leather goods and fashion**. We work directly with Polish chains, brands, wholesalers and producers.
- **Direct, Polish-speaking contact** with decision-makers, which is essential for both qualification and attendance.

Commercial terms for this assignment will be presented separately once CLE confirms the scope and quotas.

Annex A – Buyer profile template (one per buyer)

1. Company - Company name, legal form, KRS / CEIDG number, VAT number - Year established, address, website or online shop - Turnover band (PLN or EUR), number of employees - Group: Footwear / Leather accessories / Leather apparel - Buyer type: retail chain / brand / e-commerce / importer–wholesaler / producer / PPE distributor / corporate gifts

2. Business and channels - Number of stores, e-commerce share, B2B customers, export markets (Central and Eastern Europe) - Main product categories, target customers (men, women, children), price segment (retail price range)

3. Purchasing - Annual purchase volume (pairs or pieces) and value band - Current sourcing countries and share of imports - Experience with Indian suppliers (yes or no, details) - Typical MOQ, payment terms and order calendar

4. Sourcing need for BFLEX 2027 - Products sought (style, material, construction), target quantity, target price - Season or delivery window, private label or supplier's own designs - Compliance or certification requirements

5. Delegate - Name, position, decision-making authority, LinkedIn profile - Languages, passport validity (yes or no), visa experience in India

6. Poland Importers assessment - Must-have criteria: all met (yes or no) - Score out of 100, Category A or B - Recommendation (2–3 sentences) - Attachments: registration extract, Declaration of Intent, GDPR consent

7. CLE decision - APPROVED / REJECTED / QUERY / WAITLIST, with date and comments

Annex B – Qualification call questionnaire (summary)

1. What share of your range is made of leather? Which product groups and price segments?
2. Which countries do you import from today? Do you import directly or through agents?

3. What are your annual volumes per product group? What MOQ per style can you accept?
4. Which products are you looking to source for AW 2027 and SS 2028? What are your target prices?
5. Have you worked with Indian suppliers? If so, what was your experience? If not, why not?
6. Who in the company approves samples and places orders? Will that person travel?
7. Can you attend both days, 15–16 March 2027? Do you have a valid passport?
8. Which compliance requirements apply to your purchases (REACH, safety standards, audits)?
9. Do you accept that participation is subject to CLE approval and its hosted-buyer terms?
